Newsletter Date 12/1/24

Dear parents and carers,

Welcome to Spring Term 2024. Today you will receive copies of the class newsletters and curriculum maps, which we hope you find useful. The Spring term is in fact the shortest, with lots happening. Do keep an eye on the newsletter and X (formally Twitter) for regular updates and news.

Some things to pop in your diaries include a Beech class trip, parent's evenings and the Easter service.

We are currently having a new website built which will also help inform parents of life at Holy Trinity, and will share the launch date with you soon. Watch this space!

Other news is that we are delighted to welcome back Ms Creegan from maternity leave this week. We have missed her! Chestnut class have been excited to see her return. Wishing you all a lovely weekend.

Kind regards

Ceri Daniels

**Wraparound Care Bookings
After School & Breakfast Club**

Thank you to those parents who pre-booked their children into after school and breakfast clubs this week using our new system on ParentPay. Due to safeguarding, we need to know which children to expect as some older children arrive/walk home by themselves. We also have a maximum capacity of 15 children for each session. From now on, please ensure that you book children into the breakfast/after school club at least a week in advance. Thank you for your understanding. If you require attendance at the last minute please contact the school office.

School Meals We have an increasing number of people not booking their children's lunch choices, this creates a huge amount of work, as our meals are not currently cooked on-site and we order our ingredients a week in advance so therefore we can't always cater for those who haven't booked in advance. Please ensure you book if your child is having a school meal or provide a packed lunch. Thank you.

Maple Class News

This week, the children were excited to begin reading our new class text "Journey to The River Sea" by Eva Ibbotson. The book is linked to our Geography based project - Protecting Our Planet for the Future. The text is about an orphan, who moves to live with relatives in the Amazon Rainforest. So far, the children have used their inference and retrieval skills to draw a picture and write a description of the main character, Maia
